ABOUT ME

I am a life-long learner and spend my moments outside of work thoughtfully. Currently, I'm reading about the future of marketing using AR/VR and studying for my Part 107 Drone Pilot's License. It's not unusual for me to sing folk tunes, play in Photoshop, or hang out at the park with my dog. You can find me at most of the local Comic Cons playing Magic: the Gathering, swooning over awesome art, or cosplaying (sometimes all three at once).
